ON THE LAST TWO VERSES OF SURA 9

Since the first presentation of evidence that the last two verses of Sura 9 are false injections (March 1985 issue), I received more support than objections. Some objections resulted from lack of understanding the mathematical data. For example, some people looked up the Qur'an's index and found that the word "Rasool" occurs in Qur'an 116 times, not 115 as reported in my 1985 declaration. Thus, they did not take into consideration that one word "Rasool" ^{رسول} refers to the "Rasool of Pharaoh (12:50), and was not counted as "Rasool of Allah. Another example is the word 'Arsh ^{عرش} which means dominion, or palace, or throne. The objectors did not deduct the occurrence of the word 'Arsh when it referred to the "Arsh of the Queen of Sheba (27:23). Even the objectors did agree with me regarding other words in 9:128-129 which violated the Qur'an's mathematical code.

The majority of objections centered around the infallible divine law of preservation of Qur'an.

Surely, we have sent down this message, and surely, we will preserve it. (15:9)

Falsehood shall not come into it (Qur'an) in the past or the future. (41:42)

Let me state at the outset that Qur'an is and has always been perfectly preserved, as proven irrefutably by the mathematical code. Every sincere believer actually knew the perfect Qur'an, and every sincere believer today, and forever, knows the perfect Qur'an. As it turned out, the true Muslims did know the true Qur'an, while the false Muslims knew a false Qur'an. False Muslims are not worthy of Qur'an, because they have made a decision not to believe in the Qur'an's perfection and completion as divinely stated in 6:19, 38, & 114. Please see 7:146 & 18:57. They uphold other sources such as Hadith & Sunna).

The vast majority of Qur'an in the world today do not conform to the original Qur'an as written by Muhammad's own hand; they exhibit a variety of errors. Millions of Qur'ans have been printed

in Iran during the last five years using standard Arabic, not the divinely dictated and unique Qur'anic Arabic. All these copies are wrong, for they violate the mathematical composition created by God to guard and protect every letter in Qur'an. But this does not nullify God's law that Qur'an has been perfectly preserved. The true Muslims continue to know the true Qur'an and the false Muslims continue to know a false Qur'an. This too is God's law as stated in 7:146. Many readers wrote that they were always uncomfortable with the obvious deification of the Prophet in 9:128-129. They always felt that something was wrong.

HERE IS THE ANSWER FOR THOSE WHO MISUNDERSTOOD 15:9 AND 41:42.

As a rule,

A LAW DOES NOT EXIST UNLESS IT IS VIOLATED.

For example, let us assume that there is a law stating that you shall not leave this room. If you stay forever in this room, no one will ever know that such a law exists. But if you violate the law by leaving the room, and you are forced back into the room, then everyone knows that the law exists.

A LAW DOES NOT EXIST UNLESS IT IS VIOLATED

Thus, the violation of the law of preservation of Qur'an was in accordance with God's will in order to demonstrate to the world that such a law does indeed exist, and that any violation of the law shall be exposed and eliminated. Our Creator, Subhanahu wa Ta'ala, has given us a hint by refusing to prefix Sura 9 with His holy name.

Another good example is the divine law that the angels possess the freedom of choice. It is obvious from 2:34, 7:11, 17:61, 18:50, & 20:116 that the angels possess the freedom of choice to obey or disobey God. When they do disobey God, they become angels no more; they become Jinns (18:50). However, the only reason we know that such law exists is that

it has been violated. Only because Iblees (Satan) refused to bow down before Adam that we know that such a law exists. Had Satan obeyed God, and bowed down with the rest of the angels, we would have never known whether the angels possess the freedom of choice or not.

(PLEASE NOTE)

This Azhar-approved title indicates that Sura 9 was the last sura revealed in Medina, except for the last two verses; they were supposedly revealed in Mecca. In retrospect, this is impossible. For it means that the last two verses were revealed at least 10 years before the rest of the sura.

A study of the Meccan and Medinan revelations shows that Medinan verses are regularly found in Meccan suras, but not the other way around. This, of course, excludes the only sura revealed between Mecca and Medina (Sura 8).

Perfectly On Schedule

THE ADVENT OF A NEW ERA

With the advent of the Islamic year 1407 AH, a new era was ushered in that will eventually become known to the whole world. As stated in Qur'an 63:8, the true believers received profound signs and distinctive marks, of which the hypocrites are totally unaware.

All power belongs to God, His messenger, and the believers, but the hypocrites do not know. (63:8)

Meanwhile, Satan's days are numbered. These last days of Satan are marked by the closest birth pangs (labor pains) yet. These are the birth pangs preceding the birth of the United Islamic Nation, in fulfillment of the 19-words of Sura 110.

The birth pangs have been occurring once a week, namely, every Thursday, during the Islamic year 1406 (19x74). For example, the first Thursday of 1406 witnessed the earthquake destruction of a major center of idol-worship, Mexico City. The detailed list is shown below.

This year, 1407, the birth pangs are occurring every day (see list below). We expect a universal declaration sometime during 1407 AH, followed by the inevitable victory for all those who worship God ALONE, and uphold His word ALONE.

A GREAT SUCCESS

OUR FIRST INTERNATIONAL CONFERENCE

Our first conference was held near San Francisco August 29-31. The great events that took place during that conference assured all believers that every word and every action at the conference was guided by Almighty Allah.

The conference reporter, Jahan Spooner, is preparing a report on the conference that will be printed in the coming issue of M.P. IN SHAA ALLAH.

The next conference will be held IN SHAA ALLAH at the same time, i.e. the closest weekend to Muharram 1st, 1408. It may or may not be held in Monte Carlo as previously

announced. Due to security considerations, the Second Conference will be strictly attended by invitation only, and the location shall be known only to prospective attendees.

Some uninvited guests forced their way into the conference, in violation of Qur'an 24:27, and wasted the time of some attendees by asking such primitive questions as "Why should we uphold Qur'an alone?" and "Why should we say, 'LA ILAHA ILLA ALLAH' without mentioning other names besides Allah?" and "Why not make distinction among the prophets, since Muhammad was the best?" During the second conference IN SHAA ALLAH, security will be strengthened to avoid such disruptions.
